Remarks:  
MEO/Erasmus

**Quantitative indicators describing the module:**

Estimated total number of student work hours (contact and own work) necessary to achieve the learning outcomes assumed for the module - on this basis, complete the ECTS field:	<b>88/0</b>
The total number of ECTS points which the student receives in module requiring direct participation of academic teachers or other persons:	<b>1.36/0 ECTS</b>

**Table of compliance of the directional learning outcomes with the effects of the module**

Outcome category	Learning outcomes for module:	Reference to effects for the study program for the direction of study	The impact of classes on the directional effect*)
Knowledge	1. to know and understand the individual differences between responsible and traditional consumer behaviour	EK2_KW01	2
	2. to understand deeply sustainable food consumption	EK2_KW04	3
Skills	3 ability to examine social responsibility of consumer on food market	EK2_KU01	3
	4. ability to analyse socio-economic trends in sustainable food consumption	EK2_KU02	3
Competences	5. critical analyses of current trends in sustainable food consumption	EK2_KK01	2
	6. development of studies in sustainable food consumption	EK2_KK03	2

\*) 3 - advanced and detailed, 2 - significant, 1 - basic
