Pricing of airline reservations, Route information calculation, tariff price and final price, Booking of other tourist services. Search, cost calculation and hotel reservation, vehicle search and rental</p>		
Teaching forms and number of hours:	<p>a. lectures - no of hours: full time study: 10, part-time study. 0</p> <p>b. laboratory classes - no of hours: full time study: 20, niestacj. 0</p>		
Teaching methods:	problem solving, consultation with the lecturer, lectures, practical use of system		
Initial requirements and formal prerequisites:	To participate in the course English language skills are necessary		
Learning outcomes:	<p>Knowledge - knows and understands:</p> <p>1. Student knows and understands the basic commands of the reservation system as a modern tool</p>	<p>Skills - can:</p> <p>2. Student can build system commands and help others to do it</p> <p>3. Student can find the optimal flight connections, calculate their price and issue a ticket</p>	<p>Competences - is ready for:</p> <p>4. Using the system is ready to independent, comprehensive service sample customer and solve problems</p>
Assessment methods:	test on classes (efekty: 1,2,3,4), assessment of the project work (effects: 1,2,3,4), assessment of activities during classes (effects: 1,2,3,4)		
Formal documentation of the learning outcome:	evaluation forms (in that on attendance list), set of questions		
Elements of the final grade and their weights:	test during classes - 60%, assessment of the project work - 20%, assessment of activities during classes - 20%		

Place of teaching:	computer lab
Teaching materials (obligatory and additional):	
<ol style="list-style-type: none"> 1. E-business for tourism : practical guidelines for tourism destinations and businesses, WTO. Business Council - Madrid, World Tourism Organization , 2001 2. Lewis, R., Flying the nest (global distribution systems), Caterer & Hotelkeeper, Dec 2, 2004 3. McDonald M., Direct to the customer: American Airlines plans to bypass the GDSs for major accounts with direct connect, Air Transport World, April, 2010, Vol.47(4) 4. Boehmer J., DOT Proposes Ancillary Fee Requirements, Might Exclude Global Distribution Systems, Business Travel News, Jun 16, 2014 5. Beaver A., A Dictionary of Tourism and Travel, Oxford University Press, 2012 6. Voiculeț A., Iordache C., Prospects Of Computer - Assisted Booking And Global Distribution Systems At World Level, Revista tinerilor economiști, 2010, Issue 145 	
Remarks: If you are interested in new technologies in tourism and their practical knowledge - feel invited!	

Quantitative indicators describing the module:	
Estimated total number of student work hours (contact and own work) necessary to achieve the learning outcomes assumed for the module - on this basis, complete the ECTS field:	88/0
The total number of ECTS points which the student receives in module requiring direct participation of academic teachers or other persons:	1.76/0 ECTS

Table of compliance of the directional learning outcomes with the effects of the module			
Outcome category	Learning outcomes for module:	Reference to effects for the study program for the direction of study	The impact of classes on the directional effect*)
Knowledge	1. Student knows and understands the basic commands of the reservation system as a modern tool	EK1_KW03	1
Skills	2. Student can build system commands and help others to do it	EK1_KU05	1
	3. Student can find the optimal flight connections, calculate their price and issue a ticket	EK1_KU04	1
Competences	4. Using the system is ready to independent, comprehensive service sample customer and solve problems	EK1_KK01	2

*) 3 - advanced and detailed, 2 - significant, 1 - basic
